ABSTRACT
Ramaker and Associates, Inc. (RAMAKER) along with CLOUD 1 propose to construct a communications tower to be located in Iowa County, Wisconsin. The tower is to be located in the NE1/4 of the NE1/4 of Section 34, Township 8N, Range 3E and the lease area is to be 100ft x 100ft (30 meters x 30 meters) plus an access road and utility corridor of approximately 300ft (90 meters) in length and 12ft (4 meters) in width. The communication tower project requires a license from the Federal Communications Commission (FCC). Midwest Archaeological Consultants (MAC) conducted research of previously recorded historic sites within a one-mile radius of the proposed project area and found that there are no previously recorded sites and four archaeological surveys. The Phase I archaeological survey did not indicate the presence of any cultural resources in the proposed project area and utility easement. Further archeological investigations are not recommended and the proposed tower will have “No Effect” on archeological resources within the area of direct effects.

INTRODUCTION
RAMAKER along with CLOUD 1 propose to construct a cellular tower installation in rural Spring Green Wisconsin. The project is titled “Wyoming”. The cellular tower project requires a license from the Federal Communications Commission. As a consequence of the Federal licensing process, the project must comply with Sections 106 and 110 of the National Historic Preservation Act and State laws (157.70 Wisconsin Statutes). A review of historic property potential is required in advance of construction. The guidelines and intent of the Nationwide Programmatic Agreement for Review of Effects on Historic Properties for Certain Undertakings Approved by the FCC Report and Order 04-222 ("NPA") was followed for this project. The Guide for Public Archaeology in Wisconsin (Dudzik et al 2012) was also followed for this project.

This report has been prepared by MAC in accordance with the terms of a contract between MAC and RAMAKER. Mr. Randy Dickson served as Principal Investigator and authored this report. Mr. Dickson meets the Secretary of Interior Standards for Principal Investigator for prehistoric and historic archaeology. As part of the Direct APE evaluation, Midwest Archaeological Consultants (MAC) consulted with RAMAKER. The scope of work MAC was tasked to consider included the footprint of the proposed undertaking, as well as an area surrounding the footprint of not less than 50 feet in all directions. This footprint and expanded area were considered as part of the direct APE evaluation (i.e., area of consideration). Note, that the area considered as the Direct APE was limited to the host property and associated parcel(s). MAC is solely responsible for the research, analysis and recommendations made in this report. The proposed tower site is located at the NE1/4 of the NE1/4 of Section 34, Township 8N, Range 3E. The proposed project area is located in Iowa County 0.7 miles (1.13 kilometers) west of the community of Wyoming (unincorporated) on the south side of Lower Wyoming Road. The entire proposed cell tower lease area was subjected to an archaeological survey on April 30, 2017 by Randy Dickson M.S. R.P.A. of MAC. Mr. Dickson is a registered professional archaeologist and has worked professionally in archaeology since 1980. Mr. Dickson possesses an M.S. in anthropology. Mr. Dickson is a member of the Guidelines and Public Outreach Committee for the Wisconsin Archaeological Survey.

This Phase I archaeological survey was concerned with the direct effects APE meaning the direct impact of the cell tower to any possible cultural resources in or on the ground that may be impacted by the construction and existence of the proposed cell tower. This was a Phase I
archaeological survey for the proposed RAMAKER and CLOUD 1 project in rural Spring Green, Wisconsin.

ARCHAEOLOGICAL CONTEXT
The WHS files indicated that there are no previously recorded archaeological sites within the area of direct impact of the proposed cell tower. There are no archaeological sites located within a one-mile radius of the project area. There are four archaeological surveys within one-mile: 84-0955, 91-5006, 95-5515 and 11-1109.

ARCHAEOLOGICAL ASSESSMENT – FIELD METHODS AND RESULTS
LOCATION: The proposed project area is located in Iowa County 0.7 miles (1.13 kilometers) west of the community of Wyoming (unincorporated) on the south side of Lower Wyoming Road.

TIME: 3 hours.

TOPOGRAPHY: Hilly, Western Uplands Region-Driftless area.

NEAREST WATER: Rush Creek 1/8-mile west.

SURFACE VISIBILITY: >50%

SURVEY IMPEDIMENTS: None.

TENSION ZONE: The project area was located south of the Tension Zone.

PHYSIOGRAPHIC REGION: The project area is located in the Western Upland.

DISTURBED CONTEXT: Yes.

PROJECT AREA STAKED: Yes.

SOILS: In the proposed tower lease area consists of the following:

Iowa County, Wisconsin

303A—Bogus creek silt loam, 0 to 3 percent slopes, occasionally flooded

Map Unit Setting
- National map unit symbol: 1vgb5
- Elevation: 600 to 900 feet
- Mean annual precipitation: 28 to 33 inches
- Mean annual air temperature: 46 to 52 degrees F
- Frost-free period: 135 to 160 days
- Farmland classification: All areas are prime farmland

Map Unit Composition
- Bogus creek and similar soils: 95 percent
• Minor components: 5 percent
• Estimates are based on observations, descriptions, and transects of the mapunit.

Description of Bogus Creek

Setting
• Landform: Drainageways on valley trains
• Down-slope shape: Linear
• Across-slope shape: Concave
• Parent material: Silty alluvium over sandy and gravelly outwash

Typical profile
• Ap - 0 to 9 inches: silt loam
• A - 9 to 50 inches: silt loam
• Bw - 50 to 57 inches: silt loam
• 2C - 57 to 80 inches: sand

FIELD METHODS: Arrived at the proposed cell tower location on April 30, 2017 to conduct a Phase 1 archaeological survey upon the proposed Cloud 1 cell tower in rural Wyoming, Wisconsin. The tower site is located on the Western Upland region of southwest Wisconsin. The proposed project area is located in Iowa County 0.7 miles (1.13 kilometers) west of the community of Wyoming (unincorporated) on the south side of Lower Wyoming Road. The project area topography is flat, however, the surrounding area consists of rolling hills. The project area lies on a drainageway on a valley train. A pond is directly adjacent to the west of the project area. A culvert in the pond shows man-made alterations to the pond. A manmade irrigation channel runs north and south on the east side of the field, along the north and south side of Lower Wyoming Road. Vegetation consisted of last seasons’ corn chaff mixed with sporadic grass. The access road was non-existing and is to be located along the western existing parcel boundary where an existing wire fence was also present. The surrounding area was also agricultural with agricultural fields, buildings, and some residences associated with farms. Small amounts of naturally occurring PDC chert frost-fracturing were found on the surface, mixed with small pebbles. There are no trees within the project area. Trees surrounding the project area appear to be less than 50 years old. All of the lease area and access road were subjected to the pedestrian survey. The proposed tower lease area and access road were also subjected to shovel testing. The archaeological survey of the proposed project area called for a 100ft. x 100ft. survey area with a 50-foot buffer zone. Ground exposure was above 50%. Transects were walked north to south at 5-meter intervals. A total of N=14 shovel tests were conducted within the lease area. The soils appear more than disturbed just from agriculture. Shovel test dimensions were 40cm in diameter and varied slightly in depth. The soil was screened through ¼ inch hardware cloth. All shovel tests were conducted to sterile soil horizons. No cultural material or historic properties were discovered during the archaeological survey. All shovel tests were conducted to sterile soil horizons.
<table>

<th>Soil Horizon Depth (cm)</th>
<th>Soil Horizon Depth (cm)</th>
<th>Soil Description (All STP’s &gt;40 cm in diameter unless otherwise noted)</th>
<th>Results</th>
</tr>
</thead>
</table>
CONCLUSIONS AND RECOMMENDATIONS
This archaeological survey indicated that no historic properties are located within the proposed project location. There are no cultural resources or historic properties that would be directly impacted by the proposed cell tower project. Consequently, further archeological investigations are not recommended and the proposed tower will have “No Effect” on archeological resources within the area of direct effect. These findings are in compliance with Sections 106 and 110 of the National Historic Preservation Act.

An infallible technique to locate all cultural materials within a geographic area does not yet exist. This is especially true of deeply buried deposits. However, should any cultural, historical or paleontological be exposed as part of the proposed project activities, the responsible agency must
be immediately notified in accordance with the Protection of Historic Properties regulations of the ACHP [36 CFR Part 800.13(b)]. Furthermore, if human remains are encountered, Wisconsin burial law §157.70 requires that all work in the vicinity of the finding be stopped, the remains protected from further disturbance. The notification of local law enforcement officials must be made and the Burials Sites Preservation Program contacted immediately at (608-264-6493). Archaeologists with the Wisconsin Historical Society (608-264-6493) are also available to consult on issues regarding accidental encounter of cultural resources.

☐ Monitoring  ☐ Major Excavation/Phase III  ☐ Faunal Analysis
☐ Shovel Testing/Probing  ☐ Remote Sensing  ☐ Floral Analysis

ABSTRACT:  X Included in report  ☐ Written in space below

Office of the State Archaeologist
Dear Dr. Eisenberg:

Ramaker & Associates, Inc. (RAMAKER) was retained by Cloud 1, LLC (CLOUD 1) to complete a NEPA and Section 106 review of a proposed antenna and equipment installation to a proposed 250-foot lattice (self-support) tower (overall height with appurtenances of 255 feet). The purpose of this report is to document the potential for effect to the project’s Indirect Area of Potential Effect (Indirect APE), otherwise considered to the viewshed area of the proposed undertaking, and equivalent to an approximately three-quarter mile radius of the proposed CLOUD 1 site.

**PROJECT SUMMARY**
The proposed activity is located along Lower Wyoming Road (approximately 1,700 feet east of 6675 Lower Wyoming Road) in Spring Green (Wyoming Township), Iowa County, Wisconsin. The site is further identified as being located in the Northeast ¼ of the Northeast ¼ of Section 34, Township 8 North, Range 3 East. The location of the site is depicted on the attached Spring Green, Wisconsin Quadrangle. The site is also identified as being located at: 43° 7’ 56.91” North and 90° 6’ 57.96” West. The locations of the site, site photographs, and appropriate Area of Potential Effect (APE) maps have been included in Attachment 2 of the attached FCC Form 620.

The property consists of an approximately 100-foot by 100-foot lease area that is currently agricultural land. CLOUD 1 is proposing to develop the property with a 250-foot lattice (self-support) tower and a 40-foot by 40-foot fenced tower compound. The tower compound will include the tower, a common utility H-frame and future equipment cabinets. It is worthwhile to note however, that the compound has also been designed to accommodate additional future wireless carrier equipment shelters/platforms and the associated tower-mounted appurtenances (antennas, mounts, RRU’s, dishes, etc.). The proposed tower site’s access and utilities will originate at Lower Wyoming Road and continue approximately 235 feet south through agricultural land to the CLOUD 1 compound.

As previously noted, the host property is currently located in agricultural land. Historical resources reviewed by RAMAKER indicate that the property has been used exclusively for agricultural purposes or has been undeveloped “vacant” land since at least the 1930s. Neighboring properties include wooded land and similar large tracts of agricultural land with scattered residential/agricultural development along neighboring roadways including Lower Wyoming Road and Highway 23 farther to the southeast. Rush Creek is located approximately 600 feet west of the property. A small pond is located approximately 250 feet southwest of the property and approximately 50 feet west of the proposed access drive.

**INDIRECT APE EVALUATION**
The Area of Potential Effect (APE) for visual effects is the geographic area in which the Undertaking has the potential to introduce visual elements that diminish or alter the setting, including the landscape, where the setting is a character-defining feature of a Historic Property that makes it eligible for listing on the National Register of Historic Places (NRHP). As part of the FCC Form 620 submittal RAMAKER has
followed the FCC guidance and determined that the APE for visual effects for this project shall be limited to an area within a three-quarter radius of the project site. RAMAKER completed research using the SHPO's GIS database and then completed a "window survey" of the Indirect APE so as to consider any sites that were previously unreported or potentially eligible for the NRHP. In addition, RAMAKER is in the process of consulting with the Town of Wyoming, the Iowa County Planning & Development and the Iowa County Historical Society. Lastly, RAMAKER is in the process of soliciting public comments through the filing of public notice in the Wisconsin State Journal newspaper. These activities are being completed so as to further identify any properties that had not been previously considered. This research identified two historic (Landmark, Nation Register-Eligible or SHPO "noted") features as being located within the Indirect APE. An outline of the potential for impact as a result of the proposed undertaking however includes a total of four features that have identified within an expanded APE of one-mile. The following is an outline RAMAKER’s determination of effect to these features.

### Site Specific Review & Impact Summary

<table>
<thead>
<tr>
<th>SHPO Site ID:</th>
<th>27785 = Wyoming Valley School</th>
</tr>
</thead>
<tbody>
<tr>
<td>Site Address:</td>
<td>6306 State Highway 23 in Spring Green (Wyoming Township), Iowa County, Wisconsin 53588</td>
</tr>
<tr>
<td>Structure Type:</td>
<td>School (Wrightian) - Concrete Block, circa 1957</td>
</tr>
<tr>
<td>NRHP Eligibility:</td>
<td>Determined Eligible</td>
</tr>
<tr>
<td>Effect Summary:</td>
<td><strong>No Adverse Effect:</strong> Based on review of available resources this feature has been mis-mapped. RAMAKER determined this feature is located approximately 0.9 miles south of the proposed undertaking. Based on distance, coupled with other &quot;modern&quot; development in the project, the addition of the tower at the proposed distance will not result in adverse effect to this feature. Additionally, this feature is located outside of FCC’s prescribed Indirect APE search radius of 0.75 miles.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>SHPO Site ID:</th>
<th>47388 = Wyoming Methodist Church &amp; Meeting Hall</th>
</tr>
</thead>
<tbody>
<tr>
<td>Site Address:</td>
<td>6348 State Highway 23 in Spring Green (Wyoming Township), Iowa County, Wisconsin 53588</td>
</tr>
<tr>
<td>Structure Type:</td>
<td>Church (Gothic Revival) - Clapboard; circa 1902</td>
</tr>
<tr>
<td>Site Notes:</td>
<td>Two Buildings: A small, front-gabled meeting hall (1857 - Originally the Church) and a cross-gabled church (1902). The only noteworthy feature of the former is the pair of pilasters that flank the front door. The church, however, is remarkable in that it sports a tower at the crux of the gables. After several setbacks, this tower rises into a steeple with small gables at its base. The church also features smaller pointed-arch windows, as well as a larger window with three lancets and tracery. A denticulated stringcourse, which runs at the base of the gable end pushes upwards as it passes over the latter window, mimicking the shape of the gable in the process.</td>
</tr>
<tr>
<td>NRHP Eligibility:</td>
<td>Determined Eligible</td>
</tr>
<tr>
<td>Effect Summary:</td>
<td><strong>No Adverse Effect:</strong> This feature is located approximately one half-mile of the proposed undertaking. Due to the dense tree growth surrounding the feature RAMAKER determined that a proposed tower site will have a limited visual impact to the feature. Therefore, it is the opinion of RAMAKER that the proposed undertaking will a &quot;No Adverse Effect&quot; to the Eligible feature.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>SHPO Site ID:</th>
<th>47398 - Wild Daisy Gift Shop</th>

<td>House (Wrightian) - Wood</td>
</tr>
<tr>
<td>--------------------</td>
<td>-------------------------</td>
</tr>
<tr>
<td><strong>NRHP Eligibility:</strong></td>
<td>Undetermined</td>
</tr>
<tr>
<td><strong>Effect Summary:</strong></td>
<td>No Effect: Based on review of historic aerial photographs, RAMAKER determined this feature has been razed.</td>
</tr>
</tbody>
</table>

**Site Specific Review & Impact Summary**

<table>
<thead>
<tr>
<th><strong>SHPO Site ID:</strong></th>
<th>60222 - Upper Wyoming Valley School (Wyoming Town Hall)</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Site Address:</strong></td>
<td>6294 State Highway 23 in Spring Green (Wyoming Township), Iowa County, Wisconsin 53588</td>
</tr>
<tr>
<td><strong>Structure Type:</strong></td>
<td>One Room School (Front Gable) - Drop Siding; circa 1870</td>
</tr>
<tr>
<td><strong>Site Notes:</strong></td>
<td>Functioned as a rural one room schoolhouse from 1870s until 1957 when it became the Wyoming Town Hall. Also on the property is a small, wood construction, shed roofed storage shed that was built after 1957, and a medium sized, metalclad, gable roofed storage and garage building, also constructed after 1957.</td>
</tr>
<tr>
<td><strong>NRHP Eligibility:</strong></td>
<td>Contributing - Upper Wyoming Valley School</td>
</tr>
<tr>
<td><strong>Effect Summary:</strong></td>
<td>No Adverse Effect: Based on review of available resources this feature has been mis-mapped. RAMAKER determined this feature is located approximately 0.9 miles south of the proposed undertaking. Based on distance, coupled with other &quot;modern&quot; development in the project, the addition of the tower at the proposed distance will not result in adverse effect to this feature. Additionally, this feature is located outside of FCC’s prescribed Indirect APE search radius of 0.75 miles.</td>
</tr>
</tbody>
</table>

When considering the potential for effect, RAMAKER has opined that the proposed undertaking would result in “No Adverse Effect” to the Indirect APE.

**FINDINGS**

Based on the above research, RAMAKER has concluded that the proposed CLOUD 1 activities will have “No Adverse Effect” to sites of historic significance and/or the Indirect APE.

If you have any questions or comments, please do not hesitate to contact our office.

Sincerely,

RAMAKER & ASSOCIATES, INC.

<td><strong>Additional Comments</strong></td>
<td>A 'site file' exists for this property. It contains additional information such as correspondence, newspaper clippings, or historical information. It is a public record and may be viewed in person at the State Historical Society, Division of Historic Preservation. TWO BUILDINGS: A SMALL, FRONT-GAZED MEETING HALL (1857—ORIGINALLY THE CHURCH) AND A CROSS-GAILED CHURCH (1902). THE ONLY NOTEWORTHY FEATURE OF THE FORMER IS THE PAIR OF PILASTERS THAT FLANK THE FRONT DOOR. THE CHURCH, HOWEVER, IS REMARKABLE IN THAT IT SPORTS A TOWER AT THE CRUX OF THE TWO GABLES. AFTER SEVERAL SETBACKS, THIS TOWER RISES INTO A STEEPLE WITH SMALL GABLES AT ITS BASE. THE CHURCH ALSO FEATURES SMALLER POINTED-ARCH WINDOWS, AS WELL AS A LARGER WINDOW WITH THREE LANCETS AND TRACERY. A DENTICULATED STRINGCOURSE, WHICH RUNS AT THE BASE OF THE GABLE END, PUSHES UPWARD AS IT PASSES OVER THIS LATTER WINDOW—MIMICKING THE SHAPE OF THE GABLE IN THE PROCESS.</td>

NOTICE OF ORGANIZATION(S) WHICH WERE SENT
PROPOSED TOWER CONSTRUCTION NOTIFICATION INFORMATION

Dear Sir or Madam:

Thank you for using the Federal Communications Commission's (FCC) Tower Construction Notification System (TCNS). The purpose of this electronic mail message is to inform you that the following authorized persons were sent the information you provided through TCNS, which relates to your proposed antenna structure. The information was forwarded by the FCC to authorized TCNS users by electronic mail and/or regular mail (letter).

Persons who have received the information that you provided include leaders or their designees of federally-recognized American Indian Tribes, including Alaska Native Villages (collectively "Tribal Nations"), Native Hawaiian Organizations (NHOs), and State Historic Preservation Officers (SHPOs). For your convenience in identifying the referenced Tribal Nations and NHOs and in making further contacts, the City and State of the Seat of Government for each Tribal Nation and NHO, as well as the designated contact person, is included in the listing below. We note that Tribal Nations may have Section 106 cultural interests in ancestral homelands or other locations that are far removed from their current Seat of Government. Pursuant to the Commission's rules as set forth in the Nationwide Programmatic Agreement for Review of Effects on Historic Properties for Certain Undertakings Approved by the Federal Communications Commission (NPA), all Tribal Nations and NHOs listed below must be afforded a reasonable opportunity to respond to this notification, consistent with the procedures set forth below, unless the proposed construction falls within an exclusion designated by the Tribal Nation or NHO. (NPA, Section IV.F.4).

The information you provided was forwarded to the following Tribal Nations and NHOs. If a Tribal Nation or NHO does not respond within a reasonable time, you should make a reasonable effort at follow-up contact, unless the Tribal Nation or NHO has agreed to different procedures (NPA, Section IV.F.5). In the event a Tribal Nation or NHO does not respond to a follow-up inquiry, or if a substantive or procedural disagreement arises between you and a Tribal Nation or NHO, you must seek guidance from the Commission (NPA, Section IV.G). These procedures are further set forth in the FCC's Declaratory Ruling released on October 6, 2005 (FCC 05-176).

(NPA, Section IV.F.4).

The information you provided was forwarded to the following Tribal Nations and NHOs. If a Tribal Nation or NHO does not respond within a reasonable time, you should make a reasonable effort at follow-up contact, unless the Tribal Nation or NHO has agreed to different procedures (NPA, Section IV.F.5). In the event a Tribal Nation or NHO does not respond to a follow-up inquiry, or if a substantive or procedural disagreement arises between you and a Tribal Nation or NHO, you must seek guidance from the Commission (NPA, Section IV.G). These procedures are further set forth in the FCC's Declaratory Ruling released on October 6, 2005 (FCC 05-176).
1. THPO - Erich Longie - Spirit Lake Nation - (PO Box: 198) - Fort Totten, ND - slthpo@gondtc.com; slthpo@gondtc.com - 701-766-4032
Details: Spirit Lake Nation
Contact Us: Compliance Officer Susie Fox, 701-766-4031, email slthpo@gondtc.com
Submit Proposed Projects to: cms.spiritlakeconsulting.com
Summary of Information Required: We require the complete results of the file search of the area of potential effect. Nearly every single Native cultural resource that is identified by archaeologists is recorded as unevaluated and needing further evaluation. We require you to send ALL KNOWN sites identified in the complete file search - even the unevaluated, undetermined, and recommended ineligible sites.
Complete Class I Cultural Inventory if fieldwork was not done. Complete Class III Cultural Resource Inventory Report if it was done. This should include a list of all identified sites, their resource type, distance away from the project, National Register eligibility determination if one has been made, SHPO file number, and site name. We require the same information of all newly recorded cultural resources identified for the current undertaking as well.
We require the location of the proposed project, the area of direct effect and area of potential effect, topographical maps, and photographs.
Current Fee Schedule: $400 per tower and PTC batches are $400 for the first tower and $250 per additional towers in the batch
Checks: payable to the Spirit Lake THPO Office and mailed to PO Box 198, Fort Totten, North Dakota 58335

2. THPO - Bonnie McGhee - Crow Creek Sioux Tribe - (PO Box: 286) - Fort Thompson, SD - CCSTFCCTCNS@outlook.com; bonniestjohn1968@gmail.com - 605-245-2221
Details: Crow Creek Tribal Historic Preservation Officer Bonnie McGhee
TCNS email submissions
CCSTFCCTCNS@outlook.com

3. Cultural Resources Consultant - Brian Molyneaux - Lower Brule Sioux Tribe - 187 Oyate Circle - Lower Brule, SD - lowerbrulecro@gmail.com - 605-473-8000
Details: The Lower Brule Sioux Tribe requests the following information from applicants proposing to construct or modify telecommunication towers or other equipment in our traditional territory.
REPORT REQUIREMENTS
Project proposals should contain reports with the following details:

1. Color photographs towards the proposed locality, showing the topographic formation at a distance and the Area of Potential Effect.
2. A topographic map (scale about 1:20,000) clearly showing the terrain and the locations of known archaeological sites within a mile of the APE.
3. A detailed map showing any indigenous cultural site located within or adjacent to the APE in relation to the proposed structures.
4. A brief description of the project setting, including topography, vegetation, existing disturbances, and archaeological survey results (as per Section 106, NHPA).

EXCEPTION: IF THE PROJECT IS: a rebuild, co-location, antenna on existing (non-tower) structure, is within a highway or railroad right-of-way, or within an urban (built-up) area, the report must only provide brief details of the undertaking, with a map and one or more site photographs showing the project area in its landscape setting.

SUBMISSION REQUIREMENTS

Applicants should prepare reports in pdf format. Send ONLY the electronic version, via email, to the Tribe for review (see review fees and address details below). Note: The email subject line should include the TCNS number and the type of project (raw land, developed, above-ground modification). NOTE THE NEW EMAIL ADDRESS: lowerbrulecro@gmail.com.

REVIEW FEE SCHEDULE

The Lower Brule Sioux Tribe charges a review fee of $400 per site for the evaluation of a cellular communication structure project proposal if the Tribe has not previously reviewed and cleared a proposal at the specified location.

EXCEPTION 1

If a proposal requires review time to clarify the potential for impacts to Tribal cultural resources, but does not require further background research (for example, tower construction on disturbed ground at the edge of a built-up area) the fee will be $150.

EXCEPTION 2

If a proposal concerns a location that the Tribe knows has no potential for significant direct or visual impacts to cultural resources (for example, an antenna on a building in an urban area, an additional antenna on a tower the Tribe previously determined had no effect on cultural resources integrity, or a small tower or other device within an active railroad right-of-way) the fee will be $50.

FEE PAYMENT

When you submit a project proposal, please acknowledge in your email that you have sent the appropriate payment to the Tribe. Make checks payable to: LBCRO (you must include the TCNS number on the check). Send the payment to: LBCRO, Cultural Resources Office, 187 Oyate Circle, Lower Brule, SD 57548.
QUESTIONS

If you have any questions or require further information, please contact Dr. Brian L. Molyneaux, Cultural Resources Office, Lower Brule Sioux Tribe, 187 Oyate Circle, Lower Brule, SD 57548 (605-730-2392) (lowerbrulecro@gmail.com).

4. THPO & Tribal Anthropologist - Dianne Desrosiers - Sisseton-Wahpeton Oyate of the Lake Traverse Reservation - (PO Box: 907) - Sisseton, SD - SWO_TCNS@swo-nsn.gov; SWO_TCNS@swo-nsn.gov - 605-698-3584
Details: The Sisseton-Wahpeton Oyate required method of consultation is digitally through our website. http://sisseton.heritageconsultation.com

All projects must be processed through our website. We do not accept paper or emailed submissions.

Our tribe requires the Cultural Resource or Archaeological Survey Reports completed for the project, such as the Class III Cultural Resource Inventory Report if done, or at least a Class I Cultural Inventory if fieldwork was not required. This report should include ALL identified sites within the designated area of potential effect. This includes NOT ONLY the listed and eligible sites; we want the unevaluated, undetermined, and recommended not eligible sites as well.

This report should include the previously located cultural resource designation, distance from the project, and National Register eligibility determination, if a determination has been made. No determination is fine if the site has not been evaluated, but we still want to see the information on these sites. Please include the resource type, such as historic irrigation, homestead, lithic scatter, burial mound, etc.

The Tribe charges a review fee in the amount of $400 for processing each request, including colocations, since we were not at the table to begin with on these colocation projects, we want to make sure we have the opportunity to look at these now and get that history known.

This paragraph only applies to Positive TrainControl Projects submitting multiple PTC towers using the FCC batching method. The Tribe charges $400 for the first nonexcluded PTC tower in the batch, plus $250 for each additional nonexcluded tower listed under one TCNS number.

Payments can be made by check or money order, made payable to the Sisseton Wahpeton Oyate THPO Office and mailed to PO Box 907, Sisseton, South Dakota 57262. Please include the TCNS in the memo line of your check so that your payment is applied to the correct project.

If you have any questions or need more information, our current compliance officer is Alicia Cloud. She can answer project specific questions and track project payments. Her office phone number is 605 698 8306 and her email is SWO_TCNS@swo-nsn.gov

5. THPO Officer - Garrie Kills a Hundred - Flandreau Santee Sioux Tribe - 603 W. Broad Avenue (PO Box: 283) - Flandreau, SD - garrie.killsahundred@FSST.org - 605-997-3891 (ext: 1240)
6. Tribal Historical Preservation Cemetery Board Chairman - Arthur Denny - Santee Sioux Nation - 52948 Hwy 12 - Niobrara, NE - bdennyceo@yahoo.com; tj_avery@yahoo.com - 402-857-3338
Details: The Santee Sioux Nation would like to provide a site study on all construction matters. Please contact us regarding your proposed project. We have a special concern regarding Traditional Cultural Properties (TCPs) for construction. Administrative fee is $200. If further review is required, we will email an invoice to you. All fees must be paid payable to "Santee Sioux Nation" mailed to: Santee Sioux Nation, Attn: Arthur Denny, 52948 Hwy 12, Niobrara, NE 68760. Please include Tessa Avery with correspondences @ tj_avery@yahoo.com
Sincerely,
Arthur Denny
Tribal Historical Preservation/Cemetery Board Chairman
bdennyceo@yahoo.com
(402) 857-3338

7. THPO Director - Randy Teboe - Winnebago Tribe of Nebraska - P.O. Box 687 - Winnebago, NE - henry.payer@winnebagotribe.com - 402-878-3313
Details: EFFECTIVE 4-10-17
The Winnebago Tribe of Nebraska THPO is charging a non-refundable Research Service Fee of $500.00 per request. This fee will need to be paid prior to any action on your request.
Additionally we are requiring topographic maps specifying the Area of Potential Effect (APE), clear photographs of the APE and affected structures, description of the work to be preformed, describe earth disturbing activities; depth and breadth of the disturbance and a Cultural Resource Survey endorsed by an Archaeological Firm.
Please be advised we are requiring hard copies to be mailed to:
THPO
Winnebago Tribe of Nebraska
P.O. Box 687
Winnebago, Nebraska 68071

Thank you.
Randy Teboe
Interim THPO
henry.payer@winnebagotribe.com
(402) 878-3313

If the applicant/tower builder receives no response from the Winnebago Tribe of Nebraska within 30 days after notification through TCNS, the Winnebago Tribe of Nebraska has no interest in participating in pre-construction review for the proposed site. The Applicant/tower builder, however, must immediately notify the Winnebago Tribe of Nebraska in the event archaeological properties or human remains are discovered during construction, consistent with Section IX of the Nationwide Programmatic Agreement and applicable law.
8. Tribal Historical Cultural Preservation Officer - Thomas Wabnum - Prairie Band Potawatomi Nation - Government Center 16281 Q Road - Mayetta, KS - thomaswabnum@pbpnation.org; jrw@pbpnation.org - 785-966-4013

If the applicant/tower builder receives no response from the Prairie Band Potawatomi Nation within 30 days after notification through TCNS, the Prairie Band Potawatomi Nation has no interest in participating in pre-construction review for the proposed site. The Applicant/tower builder, however, must immediately notify the Prairie Band Potawatomi Nation in the event archaeological properties or human remains are discovered during construction, consistent with Section IX of the Nationwide Programmatic Agreement and applicable law.

9. Tribal Historic Preservation Officer - Elsie Whitehorn - Otoe-Missouria Tribe of Indians - 8151 Highway 177 - Red Rock, OK - jjackson@omtribe.org; ewhitehorn@omtribe.org - 580-723-4434 (ext: 202)

Details: NOTICE OF FEE CHANGES EFFECTIVE 3/1/17. The Otoe-Missouria Tribe of Indians requests that the complete FCC Form 620 including the cultural resources survey be submitted along with the updated $750.00 research fee for every TCNS notification within the Otoe-Missouria areas of interests and the updated $750.00 research fee for PTC notices. The Otoe-Missouria Tribe will then conduct research and complete the Section 106 Review process and submit a letter of concurrence or non-concurrence for each proposed TCNS action. Mail or email requested information and fee to The Otoe-Missouria Tribe THPO Elsie Whitehorn 8151 HWY 177 Red Rock, OK 74651. Additionally, the THPO can be contacted at 580-723-4466 ext 202 ewhitehorn@omtribe.org.

We do prefer documents be sent electronically if at all possible. Thank you.

10. THPO - Halona Cabe - Ponca Tribe of Indians of Oklahoma - 20 White Eagle Drive - Ponca City, OK - halona.clawson@ponca.com - 580-762-8104
Details: Mrs. Halona Clawson, THPO for Ponca Tribe of Oklahoma, is the point of contact for all TCNS notifications and correspondence. The mailing address is 20 White Eagle Drive, Ponca City, OK 74601 and the email address is halona.clawson@ponca.com. The Ponca Tribe of Oklahoma will participate in pre-construction review and government to government consultation regarding all proposed communication facilities that have a potential for affect on historical properties (undertaking) as defined in Section 106 of the National Historic Preservation Act as amended. The Ponca Tribe of Oklahoma requires that each applicant submit a copy of the FCC form 620 application preferably electronically as a component of Tribal pre-construction review. After review, the Ponca Tribe of Oklahoma will submit to the applicant a letter of concurrence, non concurrence or request for additional information. The Ponca Tribe of Oklahoma will charge BEGINNING FEBRUARY 1, 2017 a fee of $750.00 for completing this component of Section 106-Pre-Construction Review's described in the FCC Best Practices Agreement and $750.00 review fee for PTC notices. The Ponca Tribe of Oklahoma will respond to all proposed communications facilities applications in the manner stipulated by the Best Practices Agreement.

We do prefer documents be sent electronically if at all possible. Thank you.

11. TCNS Director - Iowa Tribe - Iowa Tribe of Oklahoma - 222 E. Grand Suite 313 - Ponca City, OK - iowatribetcns@gmail.com; iowatribetcns@gmail.com - 405-443-7531
Details: Starting on February 13, 2017
The Iowa Tribe of Oklahoma wishes to continue exercising its sovereignty concerning identification and protection of Tribal Cultural Sites, Sacred Sites, and Traditional Cultural Properties by fully participating in the FCC’s Tower Control Notification System and Section 106/pre-construction review for new and existing towers. The Iowa Tribe requests that consultants forward the complete FCC Form 620 by e-mail only along with a $550.00 fee made to the Iowa Tribe of Oklahoma for the processing and research of each project. Please mail to Iowa Tribe of Oklahoma, TCNS Director, 222 E. Grand Avenue Suite 313, Ponca City, OK 74601. Please include the TCNS number(s) and invoice number on the memo line of the check for tracking your project payment. After research and review, the Iowa Tribe will submit a letter of concurrence/non-concurrence and acknowledgment of receipt of fees.

12. NAGPRA Representative - Kent Collier - Kickapoo Tribe of Oklahoma - (PO Box: 70) - McLoud, OK - pamwesley@kickapootribeofoklahoma.com - 405-964-2075

13. TCNS Coordinator - Carol Butler - Sac and Fox Nation in Oklahoma - 920883 S. Hwy 99, Building A - Stroud, OK - Carol.Butler@sacandfoxnation-nsn.gov - 918-968-3526

Details: Consultation Procedures and Details

Initial Interest - The Sac and Fox Nation in Oklahoma TCNS Program reviews ALL projects within our jurisdiction and historic homelands. Upon notification from the FCC, a "Letter of Interest" accompanied by an invoice detailing our administrative review fee will be emailed to the appropriate Contact Person listed on the TCNS notifications (Please contact our office at sacandfoxtcns@gmail.com or by phone at (918) 968 - 3526 ext. 1072 if you would like hard-copies sent through the US Postal Service or if there is another individual that will serve as the contact person). This will allow for a quicker reply for initial indication of interest. This letter is the Official Notice that the Sac and Fox Nation in Oklahoma wishes to consult on said project.

Information required in order to complete the Review Process are as follows:

- Tower Site Information (TCNS number, Site Name, Project number if applicable, legal description, latitude and longitude, county, physical address, and basic tower construction information)
- SHPO Response Letter
- Cultural Resource Report and/or Archaeological Survey Report
- Site Aerial Photographs
- Photographs in the Contour Directions
- Topographic or Quadrangle Maps
- Site Plans/Construction Drawings
- The FCC Form 620 or 621

In an effort to go paperless, please email all the required information to sacandfoxtcns@gmail.com and to Carol.Butler@sacandfoxnation-nsn.gov.

Tribal Response to the Request for Review - The TCNS Program staff will review the materials soon after receipt and contact the consulting company by email if any additional information is needed to complete the review. NOTE: Our review period/time (30 calendar days) WILL NOT BEGIN until ALL the information asked for in the letter of interest including the administrative review fee is received by the Sac and Fox Nation in Oklahoma TCNS Program. In addition, the 30 day review period will be renewed, if any additional information is needed, upon receipt of the newly requested
information. If no additional information is requested, we will review your information within 30 calendar days upon receipt of that information by our office. Please note that we will make every effort to respond to your request as quick as possible.

Review Fee - ATTENTION: As of September 1, 2015, the Sac and Fox Nation in Oklahoma TCNS Program will charge an administrative review fee of $500 per review/project. Please remember that fees in this process cover the research and activities involved in sharing our special expertise with your company.

Upon receipt of our invoice, submit your payment of $500 in the form of a check accompanied with a brief letter detailing the TCNS project and contact person with whom all correspondences should be emailed.

Checks for the review fee should be made out to the Sac and Fox Nation in Oklahoma - TCNS Program. Please also put the TCNS number on the memo line as this is how we track projects. You may hand-write the TCNS number on the memo line. We also will accept a check for multiple towers ($500/tower) if this is more convenient. However, our office still would like the TCNS numbers that the check will cover listed on the memo line or somewhere on the check stub. If we cannot figure out what TCNS number the check covers, our response to your project will be delayed.

Please send all checks via the US Postal Service/FedEx/UPS to:
Sac and Fox Nation in Oklahoma
TCNS Program
920883 S. Hwy 99, Building A
Stroud, OK 74079

14. THPO - Michael Blackwolf - Fort Belknap Indian Community - 656 Agency Main Street - Harlem, MT - mblackwolf@ftbelknap.org; ghaseagle@outlook.com - 406-353-2293
Details: Fort Belknap Tribal Historic Preservation Office (THPO) charges a $400.00 consultation fee for each TCNS notification. In addition, if your tower project is a "twilight tower/non-compliant tower" Fort Belknap THPO charges $1,500.00 plus any/all costs incurred by its contractor.

Please submit payment to:
Fort Belknap Indian Community-THPO
656 Agency Main St
Harlem, MT 59526
Please reference account # 1051-5000-400-000-99 on all checks.

Please email archaeology reports for review to THPO Preservation Officer, Michael Black Wolf: mblackwolf@ftbelknap.org

Should you have any questions please call the Fort Belknap THPO: 406-353-8471
15. Historic Preservation Director - Johnathan Buffalo - Sac & Fox Tribe of the Mississippi in Iowa - 349 Meskwaki Road - Tama, IA - sp.historical@meskwaki-nsn.gov - 641-484-3185
Details: For the State of Missouri, the Sac & Fox Tribe of the Mississippi in Iowa is only concerned with reviewing proposed sites that are to be located north of the Missouri River. For the State of Illinois, the Sac & Fox Tribe of the Mississippi in Iowa is only concerned with reviewing proposed sites that are to be located west of the Illinois River.

16. THPO - Bob Sander - Lac Courte Oreilles Band of Lake Superior Chippewa Indians of Wisconsin - 13394 West Trepania Road, Bldg. No. 1 - Hayward, WI - rsander@gmail.com - 715-634-8934 (ext: 7408)
Details: The Lac Courte Oreililles Band of Lake Superior Chippewa Indians is only interested in reviewing proposed sites that are to be located north of Highway 29 in Wisconsin.

17. THPO - Gary Loonsfoot - Keweenaw Bay Indian Community - 16429 Beartown Road - Baraga, MI - gloonsfoot@kbic-nsn.gov - 906-353-4278
Details: The KBIC THPO reviews all projects within historic homelands for the presence of cultural resources with significance to the Anishinaabe. Your request will go through a preliminary review by our THPO/NAGPRA Technician, the review consists of relevant studies submitted by the applicant regarding cultural resources documentation, in house literature search, database search and GIS search for further information. If any cultural resources are identified during this process, the file will be turned over to the Tribal Historic Preservation Officer in order to make a determination of effects.
Information required in order to complete this process are as follows:
Project Name
Project Location
Physical Address
Latitude and Longitude
State, County, Township, Range, Section quarters
Brief Project Description
Existing studies for archaeological sites, and cultural resources.

As of June 11, 2014 the KBIC THPO will be charging a fee of $500.00 per review/collocation unless the review covers more than one section of land in which case the fee is $500.00 per section. Fees in this process cover the research and other activities required to provide you with a timely response so your project can stay on track. Please submit payment of $500.00 for each project application submitted, checks should be made payable to KBIC THPO, 16429 Beartown Road, Baraga, Michigan 49908. Any questions can be directed to: Gary Loonsfoot Jr via email gloonsfoot@kbic-nsn.gov, or by phone: 906-353-6623 ext. 4108. (Please note that Minogheezhig Sandman-Shelifoe is no longer a contact within the KBIC-THPO office)

18. Tribal Archaeologist/THPO - Kade Ferris - Red Lake Band of Chippewa Indians of Minnesota - (PO Box: 274) - Red Lake, MN - kade.ferris@redlakenation.org - 218-679-1691
Details: Red Lake Requires TCNS number for all correspondence. As of 6/20/2014, all requests are subject to a cultural resources review fee. The cost per review is $300 payable to the Red Lake Band of Chippewa Archaeology Department.
Please send a copy of all pertinent maps, archaeological reports, correspondence from SHPO, or other information that will assist the Red Lake Band in completing your request in a timely manner. Email correspondence is preferred.

For more information, please contact Mr. Kade Ferris at (218) 679-1691, or by email at kade.ferris@redlakenation.org. Mail can be sent to Kade Ferris, THPO/Tribal Archaeologist, PO Box 274, Red Lake, MN 56671.

If the applicant/tower builder receives no response from the Red Lake Band of Chippewa Indians of Minnesota within 30 days after notification through TCNS, the Red Lake Band of Chippewa Indians of Minnesota has no interest in participating in pre-construction review for the proposed site. The Applicant/tower builder, however, must immediately notify the Red Lake Band of Chippewa Indians of Minnesota in the event archaeological properties or human remains are discovered during construction, consistent with Section IX of the Nationwide Programmatic Agreement and applicable law.

19. THPO and NAGPRA Representative - Daisy McGeshick - Lac Vieux Desert Band of Lake Superior Chippewa Indians - E23857 Poplar Circle (PO Box: 249) - Watersmeet, MI - daisy.mcgeshick@lvdtribal.com - 906-358-0137
Details: Effective January 2016

ELECTRONIC TRANSFER OF MATERIALS - The Lac Vieux Desert Band of Lake Superior Chippewa (Getegitigaaning Ojibwe Nation) will go paperless.

To enable us to participate fully, Lac Vieux Desert (Getegitigaaning Ojibwe Nation) fee for such services is $500. The fee must be submitted so that the research can be done. This will be the only item received in our office via regular USPS mail or other appropriate carriers.

At that time we will review and make our determinations with the appropriate information that we have on file with our Tribe pertaining to this area and an email response will go to the designated person at that agency.

All Collocation Projects will be handled in the same manner as new projects UNLESS the Getegitigaaning Ojibwe Nation commented on the original project.

The following information shall be emailed for each project to daisy.mcgeshick@lvdtribal.com. The information must contain summary of the proposed ground disturbing activity, legal description of the Area of Potential Effects, (APE), Topo maps identifying the proposed area, and copies of any studies that have already been conducted regarding cultural resources and archaeology in their full format, including reports on archaeological and cultural sites identified to the email address below. All responses and tower project closures will be emailed back to the appropriate contact person for your agency.

Should you have any questions, please feel free to contact me at 906-358-0137.

Miigwetch,

Daisy McGeshick, THPO

Fee can be sent along with the requested information to:
20. THPO - Michael Bergervoet - Prairie Island Indian Community - 5636 Sturgeon Lake Road - Welch, MN - hwestra@piic.org - 651-385-4193

If the applicant/tower builder receives no response from the Prairie Island Indian Community within 30 days after notification through TCNS, the Prairie Island Indian Community has no interest in participating in pre-construction review for the proposed site. The Applicant/tower builder, however, must immediately notify the Prairie Island Indian Community in the event archaeological properties or human remains are discovered during construction, consistent with Section IX of the Nationwide Programmatic Agreement and applicable law.

21. THPO - THPO OFFICE - Upper Sioux Community of Minnesota - 5722 Travers Lane (PO Box: 147) - Granite Falls, MN - THPO@uppersiouxcommunity-nsn.gov; THPO@uppersiouxcommunity-nsn.gov - 320-564-3853 (ext: 6334)

Details: Please send all information and documents via email, as of August 23rd 2016.

Please email thpo@uppersiouxcommunity-nsn.gov if you need further information regarding our review fees or procedures.

Thank you.

Upper Sioux Community THPO
P.O. Box 147
Granite Falls, MN 56241
Tel: 320.564.3853 Ext 6334
thpo@uppersiouxcommunity-nsn.gov

22. THPO - Edith Leoso - Bad River Band of Lake Superior Tribe of Chippewa Indians - (PO Box: 39) - Odanah, WI - thpo@badriver-nsn.gov; THPOAsst@badriver-nsn.gov - 715-682-7123

Details: The Bad River Tribe is interested in projects with NEW ground disturbance, only.

The Bad River Tribe's fee to process requests is $650.00 per request.

The Bad River Tribe's Section 106 Consultation Procedures have been updated as of April 3, 2017.
If the applicant/tower builder receives no response from the Bad River Band of Lake Superior Tribe of Chippewa Indians within 30 days after notification through TCNS, the Bad River Band of Lake Superior Tribe of Chippewa Indians has no interest in participating in pre-construction review for the proposed site. The Applicant/tower builder, however, must immediately notify the Bad River Band of Lake Superior Tribe of Chippewa Indians in the event archaeological properties or human remains are discovered during construction, consistent with Section IX of the Nationwide Programmatic Agreement and applicable law.

23. Tribal Historic Preservation Officer - William Quackenbush - Ho-Chunk Nation - (PO Box: 667) - Black River Falls, WI - bill.quackenbush@ho-chunk.com - 715-284-7181 (ext: 1121)
Details: As of April 4, 2016, to enable us to participate fully in the TCNS program, the Ho-Chunk Nation does now require a fee for service charge to conduct research and archeological records review for the amount of $500, payable by check, made out to: HCN Cultural Resources Division

Mailing address of:
HCN Cultural Resources Division
P.O. Box 667
Black River Falls, WI 54615

The fee must be submitted to us via mail. Once we receive your correspondence and payment, we will begin our process of conducting the research necessary for Section 106 compliance on our part.
All Co-location Projects will be handled in the same manner as individual new projects.

Please note, the following items need to be received by us, before our 30 day review process begins:
  . Payment check - by Mail
  . Archaeological Survey Report (via email)
  . SHPO/THPO concurrence letter (via email)
  . Map with description of location (via email)

Please send all email correspondences to both Ira.anderson@ho-chunk.com and Bill.quackenbush@ho-chunk.com.
Should you have any questions, please feel free to contact me at 715-284-7181 or Bill.Quackenbush@ho-chunk.com.

Thank you for your time and consideration with this matter.

24. Tribal Historic Preservation Officer - Adam VanZile - Sokaogon Chippewa Community - 3051 Sand Lake Road - Crandon, WI - ray.tallier@scc-nsn.gov; thpo@scc-nsn.gov - 715-478-7500 (ext: 6435)
Details: The Sokaogon Chippewa Tribal Historic Preservation Office does not release information related to properties of traditional religious and cultural significance to anyone. However, through government-to-government consultation, the SCC THPO will review project documents to determine whether or not any of these sites exist within the Area of Potential Effects and if so those effects may be. If we have identified any sites of concern in our research of the project area, we will notify you of the fact.

Please forward the following information: a short summary of all proposed activity within the project area, Legal Description of the Area of Potential Effects, Topo maps identifying the proposed area, and copies of any studies that have already been conducted regarding cultural resources and archaeology in their full format, including reports on archaeological and cultural sites identified.
To enable us to participate fully, the Sokaogon Chippewa Community, Mole Lake Band of Lake Superior Chippewa Indians fee for such services is $350.00. $250.00 for historical/cultural records research and $100.00 for archaeological records review PER section of land. The fee must be submitted so that the research can be done. At that time we will review and make our determinations with the appropriate information that we have on file with our Tribe pertaining to this area. Emergency service provider towers, such as fire, police, and emergency responders are exempt from paying this fee.

All Collocations Projects will be handled in the same manner as new projects UNLESS the Sokaogon Chippewa Tribe commented on the original project.

Should you have any questions, please feel free to contact me at (715) 478-6435 or thpo@scc-nsn.gov.

Fee can be sent along with the requested information to:

Adam VanZile
Sokaogon Chippewa Community
Tribal Historic Preservation Office
3051 Sand Lake Road
Crandon, WI 54520
thpo@scc-nsn.gov

Make Check Payable to:
Sokaogon Chippewa Community Tribal Historic Preservation Office

25. TCNS Coordinator - Travis Patton - Eastern Shawnee Tribe of Oklahoma - 70500 East 128 Road - Wyandotte, OK - tpatton@estoo.net - 918-666-2435 (ext: 1860)
Details: The Cultural Preservation Office of the Eastern Shawnee Tribe of Oklahoma requires the following information and fees regarding all proposed FCC projects.

Please do not email documentation; it will be deleted without being opened. Mail one printed color copy of all documentation to:
70500 E 128 Rd.
Wyandotte, OK 74370

Please submit by US postal mail or other parcel carrier all of the following information for all FCC projects:

1. A 1-page cover letter with the following information:
   a) TCNS number
   b) Company name
   c) Project name, city, county, state
   d) Project type
   e) UTM coordinates using WGS84 (G1150)
   f) Total area surveyed in acres
   g) Contact information.
2. Professional cultural/archaeological resource survey report.

3. Aerial and color USGS topographic maps locating project area within the state, county, and local area.

4. Aerial, color USGS topographic, or planimetric maps locating tower site, APE, access road, utility easement, guy wire locations surveyed, surveyed staging areas, and known archaeological/historic sites.

5. Project site plan map depicting labeled shovel test locations.

7. Site photographs.

8. A copy of the review letter or TCNS e-response from the State Historic Preservation Office and all other state-mandated review offices for projects involving ground disturbance.

9. Please submit a fee of $550.00 per/TCNS project, for administration, data processing, handling, research and review. Make the check payable to the Eastern Shawnee Tribe of Oklahoma. On the memo line write all TCNS numbers. This includes new build towers, collocations, PTC poles, and projects in previously disturbed locations.

10. The Eastern Shawnee procedure document is available by email and is highly recommended for guidance. Send an email to Travis Patton at: tpatton@estoo.net.

26. THPO - Diane Hunter - Miami Tribe of Oklahoma - (PO Box: 1326) - Miami, OK - swillard@miamination.com - 918-541-1390
Details: The Miami Tribe of Oklahoma has instituted new NHPA, Section 106, consultation procedures for cell towers effective 9-15-2010. For an updated copy of these procedures (10-31-11), which you will need to follow to complete Section 106 consultation with us, please contact the THPO Assistant at swillard@miamination.com. Thank you.

27. EPA - Cheryl Stafford - Ottawa Tribe of Oklahoma - (PO Box: 110) - Miami, OK - cherylstafford@sbcglobal.net - 918-541-1902
Details: NEW INFORMATION: ALL FINAL COMMENTS ON TCNS TOWER SITES WILL BE IN WRITTEN FORM AND SIGNED INDIVIDUALLY BY Cheryl Stafford, WHICH WILL ALLOW FUTURE AUTHENTICATION BY COMPARING COPIES WITH THE SIGNED, FILED ORIGINALS. THE OTTAWA TRIBE DOES NOT PROVIDE VERBAL FINAL COMMENTS. The Ottawa Tribe of Oklahoma has developed procedures for cell tower construction projects. Please contact Cheryl Stafford for a copy of those procedures at 918-541-1902(phone) or 918-542-3214 (fax), or visit our web site ottawatribe.org. As you will see when you obtain a copy of our procedures, we require photos and a topo map for EVERY proposed site. The Ottawa Tribe of Oklahoma has listed its geographic areas...
of interest on this web site. We consider this listing to be official notification to all those proposing to construct cell
towers in those areas that you need to contact us. For those states where we are interested in all counties, we have listed
just the state. For those states where we are interested in only certain counties, we have listed the counties. The Ottawa
Tribe of Oklahoma, in concert with its historic preservation consultant Algonquin Consultants, Inc., is pleased to assist
you in complying with your Section 106 requirements. We do not handle any consultation or inquiries by e-mail.

28. THPO - Sherri Clemons - Wyandotte Nation - 64700 E, Hwy 60 - Wyandotte, OK -
   algonquinconsultants@gmail.com - 918-678-6344
   Details: Greetings from Wyandotte Nation.

   PLEASE BE ADVISED THAT AS OF TCNS NO. 126800, ALL COLOCATIONS AND PREVIOUSLY DISTURBED
   TOWER LOCATIONS WILL BE $200.

   ALL RAW LAND NEW BUILD SITES REMAIN AT $600.

   EACH PTC POLE IS STILL $100 (PER NON-EXEMPT POLE, NOT PER TCNS).

The following information is provided automatically via the TCNS web site. Additional information may be provided in
a second email that we send for each tower that is logged into TCNS. However, as we have been unable to use the TCNS
website reliably to send our second response email since early April 2014, this very likely will be the ONLY email that
you receive until the technical issue preventing us from using that feature has been addressed.

NEW INFORMATION- From this point forward, please send the required information for our review by email ONLY.
Send the fee and a cover letter by hard copy to the Tribe, but DO NOT send review information by hard copy. Doing so
will delay the review.

We are interested in consulting on this tower or broadband project, just as we are interested in being consulted regarding
all federal undertakings in our homelands. This consultation is one of the activities required by the National Historic
Preservation Act (NHPA) for such federal undertakings.

Please follow our archaeology procedures (9-9-13) and our general NHPA procedures for consultation (6-1-13), both
available by e-mailing the cell tower program archaeologist, Rebecca Hawkins, at algonquin@neok.com. These
procedures supersede all earlier versions of our procedures. All further correspondence regarding this tower should also
be directed to that email address. With questions, you may call Mr. Lamont Laird at 918-533-2212.

AS STATED IN OUR GUIDELINES, AN ARCHAEOLOGIST MUST PERFORM THE FIELD WORK AND
RELATED ANALYSES. The Wyandotte Nation will object to any tower where field work/analysis was performed after
9-9-13 and where a trained, experienced archaeologist did NOT conduct the field work. The National Park Service
defines Essential Competencies for the field of archaeology at http://www.nps.gov/training/npsonly/RSC/archeirolo.htm.
Minimally, a "trained, experienced archaeologist” has at least a BA in Anthropology with a focus in archaeology and two
solid years of field experience in the region where the field work is being performed.

The fee for all collocations and towers built in previously disturbed areas is $100. The fee for all other towers is $600.
Please make sure to provide your archaeologists with a copy of our procedures PRIOR TO the time that they do field work. If archaeology reports do not provide the information requested on the last 2 pages of our archaeology procedures, which you may use as a checklist, the report will be rejected. Please do not send reports that you know are deficient, as doing only delays the response process for your tower and those of other applicants as well.

Tizame (thank you),

Sherri Clemons, THPO
Wyandotte Nation

29. THPO - Kim Jumper - Shawnee Tribe - 29 South 69A Highway - Miami, OK - kimjumper@shawnee-tribe.com - 918-542-2441
Details: THIS IS YOUR OFFICIAL NOTICE THAT THE SHAWNEE TRIBE IS INTERESTED IN CONSULTING ON ALL PROJECTS BUILT IN OUR AREAS OF GEOGRAPHIC INTEREST.

ATTENTION, NEW INFORMATION: Our procedures were updated on 14 January 2008. Please call Kim Jumper, THPO, at 918-542-2441, so that she can send you a copy.

If your tower is a co-location, please fax us this information to let us know. We cannot always tell from the TCNS web site that a tower is a co-location. We require a written response from you to let us know that it is a co-location. If a co-location project includes some new ground disturbance (such as from an expanded compound or access road, or construction of an ancillary structure), the Shawnee Tribe treats such a project the same as any other non-co-location project.

Our correct mailing/physical address is: 29 South Highway 69A. Our correct phone number is (918-542-2441) and our historic preservation fax line is (918-542-9915). THPO Kim Jumper manages all cell tower consultation.

As of 26 June 2006, all of the faxed responses of our final comments on a tower site will contain an original Shawnee Tribe signature. Each final comment fax is signed individually. Copies may be compared, for authentication, against the original in our files. If a final comment fax does not contain a signature, it is not valid. ALL FINAL COMMENTS FROM THE SHAWNEE TRIBE ARE WRITTEN; FINAL COMMENTS ARE NEVER PROVIDED VERBALLY. IF THE SHAWNEE TRIBE IS CREDITED WITH HAVING GIVEN A VERBAL RESPONSE, THAT RESPONSE IS NOT VALID.

If you receive notification through the TCNS listing the Shawnee Tribe, that is an indication that the Shawnee Tribe is interested in consulting on the tower for which that notification was received. Please consider that our official indication of interest to you. The Shawnee Tribe considers the Tower Construction Notification System's weekly e-mail to be the first notification that we receive that a tower will be constructed in an area of our concern. We do not view the TCNS notifications completion of 106 consultation obligations.

The Shawnee Tribe has developed streamlined consultation procedures for cell tower developers and their subcontractors. If you do not have a copy of the procedures - most recently updated on 14 January 2008 - please contact us, as you must follow these procedures to consult with us on cell tower projects. Call us at 918-542-2441 or fax us at 918-542-9915.
is the tower builder’s responsibility to make sure that you have our most recent consultation procedures.

PLEASE DO NOT SEND US INFORMATION, QUERIES, OR COMMENTS ELECTRONICALLY. SINCE 1 DECEMBER 2005, WE HAVE NOT HANDLED ANY CELL TOWER CONSULTATION, INQUIRIES, OR CORRESPONDENCE VIA E-MAIL.

30. THPO - Alvin Windy Boy - Chippewa Cree Tribe of the Rocky Boy's Reservation - 9740 Upper Box Elder Road (PO Box: 230) - Box Elder, MT - Falene.Russette@iresponse106.com - 406-395-4700
Details: The Chippewa Cree Tribe has established a procedure for FCC TCNS review. Online submissions can be completed at http://app.tribal106.com. Please include/upload the Archaeological Survey report, site plans, aerial photos, topo map, and the correct coordinates for the proposed project.

According to our tribal elders, historians, and archaeological/anthropological evidence, the Chippewa & Cree Tribes have a long and storied history throughout Pennsylvania, Ohio, Indiana, Illinois, Michigan, Wisconsin, Minnesota, North Dakota, and Montana. That history includes major sacred events, encampments, medicinal plants and other significant markers that indicate our footprint throughout this entire region.

Based on the location of the proposed project and the poles that you will be constructing as part of the Section 106 process in this particular geographic location, we are REQUESTING TO BE CONSULTED on this proposed project.

The Chippewa Cree Tribe, through the Cultural Resource Preservation Department, has established a fee schedule for consultation services. We are only accepting checks at this time please make checks payable to i-Response.

Please utilize the consultation processing system on our website: http://app.tribal106.com

If you have any questions, please feel free to contact Alvin Windy Boy Sr., THPO, at alvin@nei-yahw.com or phone (406)395-4700. THANK YOU!

31. THPO - Melinda Young - Lac du Flambeau Band of Lake Superior Chippewa Indians - Tribal Historic Preservation Office (PO Box: 67) - Lac du Flambeau, WI - ldftthpo@ldftribe.com - 715-588-2139

32. THPO - David Grignon - Menominee Indian Tribe of Wisconsin - (PO Box: 910) - Keshena, WI - dgrignon@mitw.org - 715-799-5258
Details: AS OF SEPTEMBER 1, 2015, THERE IS A $400 FEE TO REVIEW PROJECTS. There is no review fee for collocations, unless there will be ground disturbance. Collations with ground disturbance will have a $200 review fee.

Please make the check payable to the "MENOMINEE TRIBAL HISTORIC PRESERVATION OFFICE" and mail to:

David J. Grignon, THPO
Menominee Indian Tribe of Wisconsin
P.O. Box 910
Keshena, WI 54135-0910
For all proposed projects, please E-MAIL a state and county map with the proposed sitemarked with an 'x' or an arrow. Please e-mail to: dgrignon@mitw.org.

Additionally, the Menominee Indian Tribe of Wisconsin requires all applicants/tower builders to provide the Tribe with an archaeological survey whenever there will be ground disturbing activity associated with the proposed project. Please e-mail the results of the archaeological survey to: dgrignon@mitw.org. An archaeological survey is not required if the proposed construction is a collocation on an existing tower, or located on a rooftop or water tower, or on ground that has been previously disturbed to two feet or below.

Sincerely,
David Grignon, THPO
Menominee Tribe of Wisconsin
P.O. Box 910, Keshena, WI  54135-0910
(715) 799-5258
dgrignon@mitw.org

33. THPO - Natalie Weyaus - Mille Lacs Band of Ojibwe Indians - 43408 Oodena Drive   - Onamia, MN - natalie.weyaus@millelacsband.com  - 320-532-7450

34. THPO - Teanna Limpy - Northern Cheyenne Tribe - (PO Box: 128) - Lame Deer, MT - ncthpofcc@gmail.com; virginia.m.w.oboyle@gmail.com - 406-477-4839
Details: The Northern Cheyenne Tribe has an interest in this site.

The Northern Cheyenne Tribe requirement for project consultation is digitally through our website. Our website is http://cms.cheyennenation.com

Please do not mail paper or emailed project submissions. For organization, documentation, and financial regulation, and by tribal resolution, all projects must be submitted to and processed through our website.

Our tribe requires the Cultural Resource or Archaeological Survey Reports completed for the project, such as the Class III Cultural Resource Inventory Report if done, or at least a Class I Cultural Inventory if fieldwork was not required. This report should include ALL known sites within the designated area of potential effect. This includes NOT ONLY the listed and eligible sites, we want the unevaluated and recommended not eligible sites included as well.

This report should include the previously located cultural resource designation, distance from the project, and National Register eligibility determination, if a determination has been made. No determination is fine if the site has not been evaluated, but we still want to see the information on these sites. Please include the resource type, such as historic irrigation, homestead, lithic scatter, burial mound, etc.

Each report should include maps that show the location of the proposed project and topographic features of the proposed project area. Each map should show the standard Area of Potential Effects as determined by the height of the tower and the FCC's Nationwide Programmatic Agreement.
When SHPO site files are referenced, please include the SHPO’s file number, site name, and a brief narrative summary as to the type of site. The summary should be sufficient to enable the reader to understand why the site was documented. We would also like to know how far the site is from the project. Each report should include photographs of the tower and the surrounding landscape.

The Tribe does not consider predictive modeling to be adequate in the identification of cultural resources. Literature review, aerial photographs, and statistical probability are not a replacement for boots on the ground.

The Northern Cheyenne Nation has a long and rich history in the area including oral histories going back millennia. Under 36 CFR 800.4 we have the right to evaluate federal undertakings with the potential to effect cultural resources. Our unique knowledge of sites and their potential significance under the National and Tribal Register make it essential for us to evaluate all sites within the area of potential effect.

Also, please include a summary of all newly recorded cultural resources identified for the current undertaking.

If a full Class III survey report was not required, please state the reason why one is not attached, such as no new ground disturbance. Otherwise the processing of the project will be held up while we try to locate a report on the project. Even if fieldwork was not required, could you please send us a Class I file search of all know sites in the surrounding area.

The Tribe charges a review fee in the amount of $400 for processing each request, including collocations - since we were not at the table to begin with on these collocation projects, we want to make sure we have the opportunity to look at these now and get that history known.

This paragraph only applies to Positive Train Control Projects. The Tribe charges $400 plus $250 for each additional tower listed under one TCNS for the current PTC batching method.

Payments can be made by check or money order, made payable to the Northern Cheyenne Tribal Historic Preservation Office, and mailed to PO Box 128, Lame Deer, Montana 59043. Please include the TCNS in the memo line of your check.

If you have any questions or need more information please call the Tribal Historic Preservation Office at 406-477-4838.

35. Acting THPO - Elaine Nadeau - Turtle Mountain Band of Chippewa - 4180 HWY 281 West (PO Box: 900) - Belcourt, ND - emnadeau11@live.com; desjarlaisjr.jeffrey@yahoo.com - 701-477-2640
Details: My name is Elaine Nadeau and I am the Acting THPO of the Turtle Mountain Band. If you need to contact me, please phone me or email at emnadeau11@live.com.

The Turtle Mountain Band of Chippewa Indians requests site maps (USGS 1:24K topo/aerial photo and written legal locations) for all projects. Please send by email a copy of any previously completed archaeological reports, maps, aerial photographs, or additional data that will be reviewed by our office.

Send information by email to Elaine Nadeau, at emnadeau11@live.com.

We review projects against our cultural site database and charge a flat fee of $300.
We cannot provide a response without payment and will consider your project incomplete in regards to satisfying consultation requirements for Section 106.

Checks must be made payable to: "Turtle Mountain Band of Chippewa/Non Federal Program Income"

Send checks and information to:

Historic Preservation Office
c/o Elaine Nadeau
Turtle Mountain Band of Chippewa Indians
PO Box 900
Belcourt, ND 58316

Sincerely,
Elaine Nadeau, Acting THPO
701-477-2600

The information you provided was also forwarded to the following SHPOs in the State in which you propose to construct and neighboring States. The information was provided to these SHPOs as a courtesy for their information and planning. You need make no effort at this time to follow up with any SHPO that does not respond to this notification. Prior to construction, you must provide the SHPO of the State in which you propose to construct (or the Tribal Historic Preservation Officer, if the project will be located on certain Tribal lands), with a Submission Packet pursuant to Section VII.A of the NPA.

37. SHPO - Brian Conway - State Historic Preservation Office, Michigan Historical Center - (PO Box: 30740) - Lansing, MI - conwaybd@state.mi.us - 517-373-1630

Please be advised that the FCC cannot guarantee that the contact(s) listed above opened and reviewed an electronic or regular mail notification. If you learn any of the above contact information is no longer valid, please contact the FCC. The following information relating to the proposed tower was forwarded to the person(s) listed above:

Notification Received: 04/18/2017
Notification ID: 155545
Tower Owner Individual or Entity Name: CLOUD 1 - Wyoming (IOWA-6013); Job # 33982 Jodi L Kleist
Consultant Name: Jodi Kleist
P.O. Box:  
Street Address: 855 Community Drive
City: Sauk City
State: WI
Zip Code: 53583
Phone: 608-643-4100
Email: TCNS@ramaker.com
Structure Type: LTOWER - Lattice Tower
Latitude: 43 deg 7 min 56.9 sec N
Longitude: 90 deg 6 min 58 sec W
Location Description: Lower Wyoming Road
City: Spring Green
State: WISCONSIN
County: IOWA

Detailed Description of Project (Optional): CLOUD 1 proposes to construct a 250 foot guyed tower along Lower Wyoming Rd (approx 1,700 feet east of 6675 Lower Wyoming Rd) in Spring Green (Wyoming Township), Iowa County, Wisconsin. Site location maps and the archaeological survey to follow.

Ground Elevation: 226.5 meters
Support Structure: 76.2 meters above ground level
Overall Structure: 77.7 meters above ground level
Overall Height AMSL: 304.2 meters above sea level

If you have any questions or comments regarding this notice, please contact the FCC using the electronic mail form located on the FCC's website at:

You may also call the FCC Support Center at (877) 480-3201 (TTY 717-338-2824). To provide quality service and ensure security, all telephone calls are recorded.

Thank you,
Federal Communications Commission
May 1, 2017

Town of Wyoming
John Hess, Town Chairman
5851 County Road Z
Spring Green, Wisconsin 53588

Submitted Via Email: johnhesswyoming@gmail.com

Dear Mr. Hess:

Ramaker & Associates, Inc. (RAMAKER) was retained by Cloud 1, LLC (CLOUD 1) to complete a NEPA and Section 106 review of a proposed antenna and equipment installation to a proposed 250-foot lattice (self-support) tower (overall height with appurtenances of 255 feet). The proposed activity is located along Lower Wyoming Road (approximately 1,700 feet east of 6675 Lower Wyoming Road) in Spring Green (Wyoming Township), Iowa County, Wisconsin. The property is further identified as being located in the Northeast ¼ of the Northeast ¼ of Section 34, Township 8 North, Range 3 East. The location of the property is depicted on the attached Spring Green, Wisconsin Quadrangle. The project is located at: 43° 7' 56.91" North and 90° 6' 57.96" West.

The property consists of an approximately 100-foot by 100-foot lease area that is currently agricultural land. CLOUD 1 is proposing to develop the property with a 250-foot lattice (self-support) tower and a 40-foot by 40-foot fenced tower compound. The tower compound will include the tower, a common utility H-frame and future equipment cabinets. It is worthwhile to note however, that the compound has also been designed to accommodate additional future wireless carrier equipment shelters/platforms and the associated tower-mounted appurtenances (antennas, mounts, RRUs, dishes, etc.). The proposed tower site’s access and utilities will originate at Lower Wyoming Road and continue approximately 235 feet south through agricultural land to the CLOUD 1 compound. Site plans have been included to further define the proposed site development activities.

As previously noted, the host property is currently located in agricultural land. Historical resources reviewed by RAMAKER indicate that the property has been used exclusively for agricultural purposes or has been undeveloped “vacant” land since at least the 1930s. Neighboring properties include wooded land and similar large tracts of agricultural land with scattered residential/agricultural development along neighboring roadways including Lower Wyoming Road and Highway 23 farther to the southeast. Rush Creek is located approximately 600 feet west of the property. A small pond is located approximately 250 feet southwest of the property and approximately 50 feet west of the proposed access drive. Aerial photographs depicting the site and neighboring property’s current land use are included.

The Section 106 review completed by RAMAKER considered both the Direct (area directly disturbed by the proposed undertaking) Area of Potential Effect (APE) and Indirect (viewshed area) APE. The APE reviews completed by RAMAKER concluded the following:

• **DIRECT APE:** When considering the Direct APE, RAMAKER consulted with Randy Dickson, Archaeologist with Midwest Archaeological Consultants, LLC. Mr. Dickson completed the appropriate due diligence as part of the Direct APE review and concluded that the proposed CLOUD 1 undertaking would have “No Effect” to the Direct APE. A more detailed summary of these findings can be found in the Direct APE Summary report, completed by Mr. Dickson.
• INDIRECT APE: Using the FCC’s guidance, RAMAKER reviewed a three-quarter mile search radius of the proposed undertaking to consider the potential for viewseshd impacts to historic structures within this search area. RAMAKER completed research, consultation, and a window survey of the Indirect APE to qualify the presence of historic structures within the APE. Upon completion of this research, RAMAKER reviewed and considered the potential for effect (as further outlined in the Indirect APE summary report) and concluded that the proposed CLOUD 1 undertaking would have “No Adverse Effect” to the Indirect APE.

• ADDITIONAL CONSULTING PARTIES: RAMAKER has been, or is in the process of, consulting with additional potentially interested consulting parties. Specifically, RAMAKER is seeking input on the potential for impact to historic properties that might not have otherwise been considered as part of the aforementioned Section 106 due diligence survey. As part of this consultation, RAMAKER filed public notice in the Wisconsin State Journal newspaper. In addition, RAMAKER is soliciting comments from the Town of Wyoming, the Iowa County Planning & Development and the Iowa County Historical Society.

It is the opinion of RAMAKER that the proposed CLOUD 1 undertaking will have “No Effect” to the Direct APE and “No Adverse Effect” to the Indirect APE.

Following the FCC protocols and procedures, should you wish to provide additional comments with respect to the potential to effect cultural and/or historic properties, please contact RAMAKER. Additionally, if you have any information regarding other potentially interested consulting parties that should be contacted, your input on this matter would also be greatly appreciated. As the project is proposed for development in the very near future, we would appreciate receiving your comments in the next 30 days.

Please direct all future correspondence to:

SUBJECT: REQUEST FOR SECTION 106 CONSULTATION COMMENTS = INTERESTED PARTY

SITE: WYOMING (SITE NUMBER: IOWA-6013) LOWER WYOMING ROAD SPRING GREEN (WYOMING TOWNSHIP), IOWA COUNTY, WISCONSIN 53588 RAMAKER & ASSOCIATES, INC. PROJECT NUMBER: 33982

Dear Mr. Godfrey:

Ramaker & Associates, Inc. (RAMAKER) was retained by Cloud 1, LLC (CLOUD 1) to complete a NEPA and Section 106 review of a proposed antenna and equipment installation to a proposed 250-foot lattice (self-support) tower (overall height with appurtenances of 255 feet). The proposed activity is located along Lower Wyoming Road (approximately 1,700 feet east of 6675 Lower Wyoming Road) in Spring Green (Wyoming Township), Iowa County, Wisconsin. The property is further identified as being located in the Northeast ¼ of the Northeast ¼ of Section 34, Township 8 North, Range 3 East. The location of the property is depicted on the attached Spring Green, Wisconsin Quadrangle. The project is located at: 43° 7' 56.91" North and 90° 6' 57.96" West.

The property consists of an approximately 100-foot by 100-foot lease area that is currently agricultural land. CLOUD 1 is proposing to develop the property with a 250-foot lattice (self-support) tower and a 40-foot by 40-foot fenced tower compound. The tower compound will include the tower, a common utility H-frame and future equipment cabinets. It is worthwhile to note however, that the compound has also been designed to accommodate additional future wireless carrier equipment shelters/platforms and the associated tower-mounted appurtenances (antennas, mounts, RRUs, dishes, etc.). The proposed tower site’s access and utilities will originate at Lower Wyoming Road and continue approximately 235 feet south through agricultural land to the CLOUD 1 compound. Site plans have been included to further define the proposed site development activities.

As previously noted, the host property is currently located in agricultural land. Historical resources reviewed by RAMAKER indicate that the property has been used exclusively for agricultural purposes or has been undeveloped “vacant” land since at least the 1930s. Neighboring properties include wooded land and similar large tracts of agricultural land with scattered residential/agricultural development along neighboring roadways including Lower Wyoming Road and Highway 23 farther to the southeast. Rush Creek is located approximately 600 feet west of the property. A small pond is located approximately 250 feet southwest of the property and approximately 50 feet west of the proposed access drive. Aerial photographs depicting the site and neighboring property’s current land use are included.

The Section 106 review completed by RAMAKER considered both the Direct (area directly disturbed by the proposed undertaking) Area of Potential Effect (APE) and Indirect (viewshed area) APE. The APE reviews completed by RAMAKER concluded the following:

- **DIRECT APE:** When considering the Direct APE, RAMAKER consulted with Randy Dickson, Archaeologist with Midwest Archaeological Consultants, LLC. Mr. Dickson completed the appropriate due diligence as part of the Direct APE review and concluded that the proposed CLOUD 1 undertaking would have “No Effect” to the Direct APE. A more detailed summary of these findings can be found in the Direct APE Summary report, completed by Mr. Dickson.
INDIRECT APE: Using the FCC's guidance, RAMAKER reviewed a three-quarter mile search radius of the proposed undertaking to consider the potential for viewshed impacts to historic structures within this search area. RAMAKER completed research, consultation, and a window survey of the Indirect APE to qualify the presence of historic structures within the APE. Upon completion of this research, RAMAKER reviewed and considered the potential for effect (as further outlined in the Indirect APE summary report) and concluded that the proposed CLOUD 1 undertaking would have “No Adverse Effect” to the Indirect APE.

ADDITIONAL CONSULTING PARTIES: RAMAKER has been, or is in the process of, consulting with additional potentially interested consulting parties. Specifically, RAMAKER is seeking input on the potential for impact to historic properties that might not have otherwise been considered as part of the aforementioned Section 106 due diligence survey. As part of this consultation, RAMAKER filed public notice in the Wisconsin State Journal newspaper. In addition, RAMAKER is soliciting comments from the Town of Wyoming, the Iowa County Planning & Development and the Iowa County Historical Society.

It is the opinion of RAMAKER that the proposed CLOUD 1 undertaking will have “No Effect” to the Direct APE and “No Adverse Effect” to the Indirect APE.

Following the FCC protocols and procedures, should you wish to provide additional comments with respect to the potential to effect cultural and/or historic properties, please contact RAMAKER. Additionally, if you have any information regarding other potentially interested consulting parties that should be contacted, your input on this matter would also be greatly appreciated. As the project is proposed for development in the very near future, we would appreciate receiving your comments in the next 30 days.

SITE: WYOMING (SITE NUMBER: IOWA-6013)
LOWER WYOMING ROAD
SPRING GREEN (WYOMING TOWNSHIP), IOWA COUNTY, WISCONSIN 53588
RAMAKER & ASSOCIATES, INC. PROJECT NUMBER: 33982

Dear Ray:

The following text was used to file public notice, as per the Federal Communication Commission’s (FCC’s) Nationwide Programmatic Agreement for Review of Effects on Historic Properties for Certain Undertakings Approved by the Federal Communications Commission (Nationwide Programmatic Agreement). Details of the public notice are provided below:

- The notice was published in: The Wisconsin State Journal newspaper
- The notice was published on: May 5, 2017
- The notice specifically stated:

Cloud 1, LLC (CLOUD 1) proposes to construct a 250’ lattice tower (255’ overall) along Lower Wyoming Rd (approx 1700’ east of 6675 Lower Wyoming Rd) in Spring Green, Iowa County, WI (Project 33982).

In accordance with the National Historic Preservation Act of 1966 and the 2005 Nationwide Programmatic Agreement, CLOUD 1 is hereby notifying the public of the proposed undertaking and soliciting comments on Historic Properties which may be affected by the proposed undertaking. If you would like to provide specific information regarding potential effects that the proposed undertaking might have to properties that are listed on or eligible for listing in the National Register of Historic Places and located within 3/4 mile of the site, please submit the comments (with project number) to: RAMAKER, Contractor for CLOUD 1, 855 Community Dr, Sauk City, WI 53583 or via e-mail to history@ramaker.com within 30 days of this notice.

A copy of the public notice’s affidavit has been included as an attachment.

If you have any questions or comments, please do not hesitate to contact our office.

Sincerely,

RAMAKER & ASSOCIATES, INC.

Andrew J. Rice, Vice President - Senior Project Manager
